Application No. 10/604,200 :
Filed: June 30, 2003 :
Attorney Docket No. 112221 :

OFFICE OF PETITIONS
ON PETITION

This is a decision on the petition filed under 37 CFR 1.181(a)(3) to correct drawings in an Image File Wrapper.

The petition is **GRANTED**.

The above referenced application was filed electronically on June 30, 2003 and included, inter alia, 9 sheets of drawings identified as 1/9, 2/99/9.

Apparently, according to the petition, the certified copy of the application included incorrectly identified the drawings and that the drawings from some other application were included with this application file.

A review of the file indicates that the correct drawings are now included with this application. In fact the file reveals that nine sheets of drawings (Figures 1-9) were included with the original application papers as filed on June 30, 2003, that while a filing date was granted, a Notice to File Corrected Application Papers was mailed September 22, 2003 and that in response, replacement drawings were submitted on October 27, 2003. Additionally, another set of drawings, identical to the drawings filed on October 27, 2003 accompany this petition.

Insofar as it relates to the drawings, the drawings were timely filed, the image file wrapper is correct, the application has been accorded a filing date and no further pre-examination review is needed with respect to this application. No petition fee is due and none has been charged.

The application will be forwarded to Technology Center 2626 for examination in due course.

Telephone inquiries concerning this matter should be directed to the undersigned Petitions Attorney at (571) 272-3212.

Patricia Faison-Ball
